

R2 API's

Enabling Easy, Fast and Seamless Real-Time Integrations

Unique Business Systems

R2 API's

We live in a universe of increasing data connectivity. Data sync between applications is now a basic benefit that must be offered by contemporary tools. R2 APIs offer just that. A core pack of defined API's that can be modified and fine tuned as per your specific interface requirements. Simple, Comprehensive, Complete, Fast and Easy.

- Language and platform independent
- RESTful API's
- Uses standar HTTP/HTTPS protocol
- Cost effect seamless data exchange
- Real-time sync
