

R2 Images

Add and Change Product Images to your R2 Inventory Database

R2 Images

Mobile phones are now increasingly a mainstream tool in today's business environment. R2's mobile apps are role-based providing a simple, easy, intuitive and fast path to specific operational information geared towards a given role/function.

An image is worth a thousand words and R2 supports multiple images per product enabling quick identification and access to visual details.

- The R2 image capture app is designed to help capture, enter and link multiple images per product into your R2 database.
- Either take new pictures of a product or select from an existing library on your mobile device, either way the process is quick and easy.

Collecting information is a basic software functionality that most softwares cater for. It is how that data is presented and the insights it provides to enable fast, informed decisions that will hugely differentiate your operations.
